# Task 5: Hero Section UI

Design a modern hero section similar to the one shown below.

✅ Your hero section should include:

- A clean navigation bar with logo and menu links (Home, Blog, Events, About, Contact)
- A CTA button in the top-right corner (e.g., "Request Demo")
- Two-column layout: text on the left, image on the right
- Article label, bold heading, and supporting text
- A prominent "Read More" button
- Stylized background shapes or abstract decorations

💡 Tips:

- Use **Flexbox** or **CSS Grid** for layout
- Apply clean **typography** and visual hierarchy
- Use **button hover effects** and modern **shapes or SVGs** for the background
- Keep the layout **fully responsive**
- Ensure **balance between image and text** sections

Use only **HTML + CSS**. Frameworks like Bootstrap are not allowed. Focus on alignment, spacing, and interactivity!
